Word [45 min]

Pastor Lionel starts by saying that a grateful heart draws us to God and that there will be a new season of Grace and we will see people having spiritual breakthrough and growth. We will also see relationships being restored and physical bodies getting better. This is because God has a mandate and a purpose in this House.

The big picture is to create in RiverLife Church a greenhouse that is effective for raising sons and daughters who are able to reveal Father's glory to our generation. The theme for 2016 is First Love according to 1 John 4:19. The inheritance is given to us and we are to grow in love. 2016 will see the strengthening of the foundation for First Love as we are to do church as a family.

Reading from Luke 17:11-19, Pastor gave the context of the healing of the ten lepers. This was a month before our Lord's crucifixion and he was on his way to Jerusalem at the border between Samaria and Galilee. In the distance (as they were an 'unclean' people), the Lepers called out to Jesus, "Master, have mercy on us." Jesus is a man of honour, power and authority. The lepers believed that He can heal them so they shouted "Have mercy on us".

First, the lepers were in a pathetic state. They knew they needed someone in authority and power to get out from the pathetic state they were in. In OT times and according to Lev 13:45 and Numbers 5:2, people with such diseases would be ostracized because of its contagious nature. In the OT, Moses' sister Miriam & King Uzziah were suddenly struck with leprosy. The lepers were also desperate. They heard Jesus had restored the blind and deaf and wanted Jesus to heal them. However, Jesus simply told them to go and show themselves to the priests. He did not pray for their healing directly. Jesus wanted them to exercise their faith and for them to be involved by taking a step of faith.

Leviticus 13 and 14 shows God's law on how these people ought to be treated. This shows that Jesus came not to deal away with the law but to fulfill it and He wanted the laws in the OT to be followed. The priests have been appointed to certify them clean. The two lessons we can take away are:

1) When we are in need, we can always turn to Jesus for help.
In times of trouble and sickness, do not cope with it on your own but rather bring your problems to Jesus.
Although there may not be immediate answer, the Lord hears and answers.

2) Even when we face difficulty, we can still exercise faith and obey his prompting

Only one out of the ten lepers, a Samaritan, went back to give thanks. In Matthew 26:6, the hopeless Samaritan met with God's power as His presence touched Him and He was healed. He understood about the One who had performed the miracle and went back to Jesus with his heart filled with joy and thanksgiving, giving Jesus the highest praise and honour. Did nine of the lepers forget about Jesus? Do we see God as an ATM dispensing machine? While Christ could heal without condition He expects us to be thankful people (Luke 17: 18-19).

The next two lessons here are:

3) Jesus expects his people to be thankful for His gifts of mercy and grace.

4) When we have a grateful heart, we draw closer to God, experience deeper grace.

Dr Luke had used 3 Greek words to differentiate the kind of healing the lepers received:

- a. Luke 17: 14, 17 - Katharizo > cleansed, purified
- b. Luke 17: 15 - iaomai > healed physically
- c. Luke 17: 19 - sozo > saved, made whole

How can we develop a grateful heart? We can choose to:

- Focus on positive things (Philippians 4:8, Habbakkuk 3:17-18)
- Be thankful in all circumstances (1 Thessalonians 5:16-18)
- bless God for all He has done (Psalm 103:1-5)

Let's start with what Philippians 4:8 says and take charge of our heart's attitude.
